

ALEXANDER BECK

UX/UI DESIGNER & CREATIVE TECHNOLOGIST

alxbeck@me.com0791 454 20 75

UX/UI designer and creative technologist with over a decade of experience shaping web, mobile, and emerging-tech products.

I combine strategic thinking with hands-on prototyping, crafting future-facing journeys rooted in inclusive, human-centred design. As Associate Design Director at MRM and previously at Hugo & Cat, I've built a strong foundation in leadership, technical fluency, and creative direction. I'm now looking to apply that experience to impactful work in health-tech at Google.

I design with empathy and intention, turning complex systems into clear, emotionally resonant experiences. I'm currently developing a tool that supports digital accessibility for neurodivergent users. My broader goal is to reduce friction between people and technology, and to make digital interactions feel more natural, intuitive, and humane.

Portfolio

PRINCIPLES & MINDSETS

Human-centred empathy – Assisted in planning and running user interviews alongside UX researchers, mapping core user journeys so design decisions reflect real needs.

Strategic foresight – Translated research insights into clear roadmaps that focus teams on shared goals, ensuring design work ties back to business and user outcomes.

Collaborative catalyst – Led design workshops and coached cross-disciplinary squads, embedding WCAG standards to create inclusive products for all users.

Restless innovator – Prototyped with Blender, Three.js, and AI tools (Midjourney, ComfyUI), exploring new creative possibilities without losing sight of real-world value.

CORE SKILL SET

Design & Research
UX/UI design, interaction design, design systems, prototyping, accessibility, usability testing – ensuring each decision is grounded in real user insights.

Technical & Tools
Figma, Sketch, Photoshop, Illustrator, After Effects, HTML5, CSS3, JavaScript, Git, Webflow – enabling seamless hand-off between design and development.

AI & Emerging Tech
Prompt engineering, Stable Diffusion/ComfyUI, Midjourney, Krea – accelerating ideation while keeping humanity alive

3D & Motion
Blender, Spline, Three.js – crafting spatial narratives and adding depth to user journeys.

Collaboration & Leadership
Design sprints, stakeholder workshops, mentoring, cross-functional delivery – driving cross-team alignment and fostering a culture of continuous improvement.

PROFESSIONAL EXPERIENCE

MRM (McCann) – London
Associate Design Director · Jul 2024 – Present (1yr)

- Defined UX/UI strategy for SMP Global Index Builder, facilitating user interview sessions and stakeholder workshops to align product vision with trader and analyst needs.
- Developed interactive prototypes (Figma + Three.js) of key flows, surfacing friction points early and reducing rework downstream.
- Partnered with engineers to implement WCAG 2.1 AA-compliant, responsive interfaces, ensuring accessibility without sacrificing brand polish.
- Advocated AI-powered design methods and low-code tools to accelerate concept exploration and foster a culture of experimentation.

Hugo & Cat – London
Associate Design Director → Senior Designer · Nov 2020 – Jul 2024 (2.7 yrs)

- Directed UX/UI for high-profile clients (Bentley, Gen Digital, S&P Global), architecting cohesive web and mobile experiences that balanced luxury branding with usability.
- Established design standards, reusable templates, and UI resources to improve consistency and speed up delivery across projects.
- Ensured digital experiences met WCAG standards, collaborating with developers to integrate accessible design practices.

Yoti – London
Senior Product Designer · Dec 2017 – Nov 2019 (2 yrs)

- Crafted privacy-first UX flows to balance KYC/security requirements with a frictionless signup experience, reducing user drop-off and building trust.
- Co-founded and maintained Yoti's design system, standardising components across web and mobile to accelerate feature delivery.
- Translated complex compliance requirements into intuitive interfaces, simplifying both B2B and B2C onboarding journeys.

Dennerlein GmbH – Frankfurt
Art Director · Oct 2014 – Aug 2017 (2.9 yrs)

- Overhauled a website for a top-5 leisure airline, improving user journeys and booking flows that contributed to a 15 % revenue increase.

Early Roles

- Junior Art Director (ANY Concept & Design), Freelance Brand Designer – built foundations in typography, storytelling and client comms.

EDUCATION

BA (Hons) Communication Design – Hochschule Mainz, Germany · 2013
Completed two semesters in Computer Science Fundamentals, University of Coimbra, Portugal.

AWARDS & RECOGNITION

CSS Design Awards – UI, UX & Innovation (2021)
Art Directors Club Germany – Bronze (2014)
German Designer Club – Future Award (2014)

LANGUAGES

Fluent English, German, Portuguese

INTERESTS & SIDE PROJECTS

ProKeyboard – designing and prototyping an accessible mobile keyboard for neurodivergent users; ask me for a demo.

Cycling, interior design, music production, indie game enthusiast – fuel for fresh creative perspectives.
